THE ULTIMATE
DM TOOLSET FOR
SANDBOX GAMING

Old School Adventures™ Accessory AX2 D30 SANDBOX COMPANION

d30-based Mechanics, Charts, and Tables to Support and Simplify the Role of the DM.

What they're saying on RPGNow...

"...virtually essential for anyone wanting to create a fantasy world (irrespective for the most part of rule system) who would like to take some of the donkey-work out of it."

★★★★★ – Megan R.

"Tables of infinite inspiration! Either handpick or randomize the results from these tables to run great sessions with zero preparation! Or use this as a writing aid to create complex, multidimensional adventures, and even use it to develop entire campaign settings! Supplied here is more than enough for DMs to pick from so you can emphasize the details important to you and your group."

I strongly suggest using this along with New Big Dragon's other accessory, the d30 DM Companion. This set is one of the best DM resources I have ever seen!"

★★★★★ – Jeffrey K.

"The Ready Ref Sheets for today, without all the bad formatting."

★★★★★ – Charles S.

The amount of inspiration squeezed into 50 some odd pages of charts and tables has left me in awe.

★★★★★ – Erik T.

**"Generically Awesome...
not just for OSR fans."**

- Douglas Cole, Gaming Ballistic
