

## The Lazy River

Finally! You finally made it to your destination after a long, arduous journey. Perhaps it was a quest to save the town from goblins or slay the dragon that was extorting the king. Maybe it was a 4-hour car ride with crying children, bumper-to-bumper traffic, and overpriced pizza. Regardless, you want to relax. You deserve to relax and you have set your sights on the lazy river! A few hours gently floating on the current with no bandits, no evil wizards, and no kids! What could possibly go wrong?

1. Entrance / Exit – there is a crush of people trying to get tubes. As you finally see one coming your way, someone else rushes out and grabs onto your tube at the same time as you
2. Waterfall ahead – everyone else is jostling to get away from it and the current is pulling you towards it.
3. Troublemakers tormenting another kid and splashing water come swimming up behind you
4. Is that a crack? I think there is a hole. What could be in there?
5. Something just grabbed your leg or swam under your tube!
6. Watch out above! – perhaps kids with water cannons or troublemakers throwing slushies off the bridge at river-riders
7. Dirty diaper floating in front of the lagoon!
8. Innertube log-jam ahead!
9. Swim-up tiki-hut where several patrons are arguing – this looks like it could erupt into a tiki-tavern brawl...

### RANDOM EVENTS

1. Your innertube springs a leak
2. Someone looking for their lost watch - are they seeking help or threatening anyone who looks suspicious?
3. Someone waving vigorously and shouting to get your attention. Do they know you or are they trying to warn you?
4. Person in distress: someone drowning, lost child, etc.
5. You see your kids scanning the lazy river looking to interrupt your rest. One of them mouths the word "Pizza."
6. A pair of swimming trunks float by without their former occupant
